

Abdulhadi Kamran

Software Engineering Student — Full-Stack Developer (MERN) in Training

abdulhadi128740@gmail.com | [linkedin.com/in/abdulhadikamran-a9330429a](https://www.linkedin.com/in/abdulhadikamran-a9330429a) | github.com/abdulhadi128740-oss | Lahore, Pakistan

EDUCATION

Bachelor of Software Engineering

Riphah International University • October 2023 — Present

Coursework: data structures, algorithms, operating systems, and full-stack web development.

EXPERIENCE

Sales & Marketing Intern

DefensiQ • December 2025 — March 2026

- Bridged technical product features and market-driven user needs, translating engineering output into value propositions non-technical stakeholders could act on.
- Analyzed market trends and competitor activity to feed actionable product feedback.
- Built outreach and communication strategies that improved engagement across campaigns.

Product Research Consultant — Amazon Marketplace Sellers

Self-Employed / Freelance • March 2022 — February 2024

- Conducted independent product research and pricing analysis for two Amazon marketplace stores.
- Identified 30+ high-potential products by analyzing demand signals and competitor pricing.
- Aligned recommendations directly with client catalog and pricing decisions.

PROJECTS

Titanic Survival Prediction — Python, Pandas, Scikit-Learn

Classification model predicting Titanic passenger survival; feature engineering on missing age/cabin data took accuracy from the mid-70s to 80%+. github.com/abdulhadi128740-oss/Titanic-Project

Donor-DSA — Blood Bank Management System — C++, OOP, Data Structures

Refactored a C++ blood bank system to an industry-standard build: full OOP redesign, smart-pointer memory handling, and first-class blood-type compatibility logic. github.com/abdulhadi128740-oss/Donor-DSA

SKILLS

Languages	JavaScript, Java, C++, Python
Web & Frameworks	React.js, Node.js, MongoDB, Express
Data & ML	Pandas, Scikit-Learn, Neural Networks, Data Structures
Tools & Cloud	Git, AWS, Cloud Computing, NetBeans

CERTIFICATIONS

- Fundamentals of Machine Learning and Artificial Intelligence — AWS
- Data Science with Python — DevTown
- C++ Essentials 1 & Operating Systems Basics — Cisco Networking Academy
